1. Background

As Nepal moves to attain stability and prosperity, creating a digital Nepal remains its vital agenda for it boosts enhanced connectivity, inclusive economic growth, democratic governance system and quality of the life of citizens. The 15th Five-Year Plan had incorporated the Digital Nepal Framework with a view to add Rs 8 billion to the gross domestic product in four years. The 2018 Digital Nepal Framework of the Ministry of Communication and Technology has rolled out an array of initiatives to find innovative ways to solve major challenges facing society within a short span of time and identify opportunities for Nepal to participate in the global economy. Based on the overarching goal of Prosperous Nepal, Happy Nepali, the Framework encompasses the idea of One Nation, Eight Domains and 80 Digital Initiatives. It has specified eight sectors – agriculture, health, education, urban infrastructure, energy, tourism, finance, and connectivity.

Nepal Telecommunications Authority (NTA) is an autonomous telecommunications regulatory body established in February 1998 pursuant to Telecommunications Act, 1997 and Telecommunications Regulation 1997. The concept of digital Nepal has largely gained ground on the back of ever-expanding telecommunication infrastructure in the country in the last one decade. One of major function of NTA is to carry out or cause to carry out the research about the development and use of new technology and develop the skilled manpower in the field of Telecommunications or ICT. Ministry of Communication and Information Technology, Government of Nepal formulate working procedure to establish and manage Information Technology Lab in community Secondary School, 2018. As per the role, responsibility and function of Nepal Telecommunications Authority on the basis of Telecommunications Act, 1997 and working procedure, 2018, NTA has selected M/s OBCI/MAX/NEPA (JV), Patandhoka, Lalitpur and M/s Star-Surya Roshani (JV), Putlisadak, Kathmandu as supplier to Supply, Delivery and Installation, Commissioning of Equipment to Establish IT Labs in 930 and 70 Government High Schools of 7 Provinces respectively.

It can be assumed that the major part of the places, where the IT Labs needs to be installed, will be in remote areas. Moreover, some of the areas lie in hilly and mountainous ecological zones, it may require climbing capability of the personnel who will be involved for the monitoring across the hilly and mountainous areas. Hence, it seems necessary that the professionals assigned to this job must be physically fit & willingness to travel.
